

# Ageless Eye-Serum (100g)

This magic serum has an amazing effect.

I have been testing Liftonin® -xpress for a long time and have now developed the ideal formula for eye care (or lips).

## Ingredients:

- 84,50g water
- 2,00g Liftonin® -xpress
- 0.70g Cosphaderm® X34
- 4.00g Hydrated Silica
- 0,30g Eyebright Extract
- 5,00g Tetrapeptides-21
- 0,20g Phytosterol Macadamiate
- 2,20g Citric acid, 10% solution
- 1.10g ChemiCons 9010

## That's how it's done:

Boil the water and to 60°C.

Phytosterol Macadamiate and dissolve it.

Now add the Liftonin®-xpress and Cosphaderm®X34 high speed stir in.

Then, stirring slowly the Hydrated Silica, Eyebright and add the peptides.

Homogenise again at high speed.

Finally, preserve the peptides.

(here it may be also gladly a other preservative)

and with the citric acid solution adjust the pH value to 5.

A care serum is ready and will surprise you.
