

Mild deodorant for her and him

This formula convinces with the effectiveness of Zinc Ricinoleate and Decalact Deo. It does not inhibit natural perspiration, nor does it have bactericidal or fungicidal properties. The decomposition process of sweat and thus the formation of odours is slowed down. Therefore the natural skin flora is not disturbed. An absolutely mild, non-irritating deodorant that can also be used immediately can be applied after shaving.

Ingredients 50g

A)
36,70g Water
0,75g Glycerin
0,75g Pentylene Glycol natural
0,05g A-Polymer XT

B)
1,25g Soft EQ65
1,25g Zinc Ricinoleate
7,50g Ester Oil

C)
0,25g Vitamin-E-Acetat
0,75g Blend TBG
0,50g Chemikons PE 9010
0,25g Decalact deodorant
0,50g Parfume

How to do:

01

Heat phase A) and phase B) separately to 80°C.

02

Then add the water phase to the fat phase and homogenize at high speed.

03

Add phase C) in case of hand heat and fill it into a deodorant roll-on glass..
