

# Tattoo Protect

Protect your fresh tattoo with this ultra light formulation. The skin heals much faster and seals the colour. This prevents the fading of these wonderful skin tones.

## Ingredients 50g

A)  
2,00g Jojoba Oil  
2,00g Neutral Oil  
1,00g Shea butter

B)  
37,40g Water  
1,00g Sorbit  
1,50g PolyAqual®-2W  
1,50g Glycerine

C)  
1,00g D-Panthenol  
1,50g LIFTONIN®-XPRT  
0,50g Chemikons PE 9010  
0,50g Linseed extract GW  
0,10g Xanthan transp.

## How to do:

01

Heat phase A) and B) separately to 80°C, add together and homogenise at high speed.

02

For hand warmth add phase C) and stir again at high speed.

Please do not use perfume, as the skin is extremely sensitive after tattooing.

Apply the cream the very next day after tattooing and then use for at least 14 days.
